***DETAILED ACTION***

Claims 12-15, 19-21, 24 and 30 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-9. Applicants' amendment filed 28 September 2006 has overcome the objection to the claims as containing non-elected subject matter; has overcome the 35 USC 112 1st paragraph rejections for lacking enablement; and the 35 USC 112 2nd paragraph indefinite rejections.

***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brent Johnson on 18 and 23 October 2006.

The application has been amended as follows:

1. Cancel claims 16-18, 22 and 23.
2. Amend claim 12 by inserting --1 to 3 substituents selected from the group consisting of-- after the phrase "optionally substituted with" and before the phrase "halogen, methyl, or trifluoromethyl;".
3. Amend claim 20 by deleting the term "comprising" from the first line of the claim and inserting in its place the phrase --of the formula--.

Art Unit: 1626

4. Amend claim 21 by deleting the term "comprising" from the first line of the claim and inserting in its place the phrase --of the formula--.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to products and methods of use of the compounds of claim 12. The novel and nonobvious aspect of this invention involves the compound as found in claim 12. The closest prior art of record, JP 50013363, which discloses compounds which differ from applicants' instant invention by a C(=O)OEt group fails to teach or suggest applicants' claimed invention as the prior art reference neither anticipates or provides direction or motivation to arrive at applicants' instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
